Brasil Fernanda Basto

Brazil, the meek half of South America with a variety of nature and culture of immeasurable expansiveness without craggy mountains and hard gestures, is a country that visitors can view openly and without obstruction. The country does not only have gigantic and over-populated metropolises, but still has vast ancient forests, the green covering of the Amazon, the fascinating habitat of the Indians, partly living as hunters and collectors and the town settings of former centuries, in which time stood still two hundred years ago. The magnificent photo picture book with its fascinating perspectives from the Amazon to the missions in South Brazil, contains many atmospheric landscape photographs, underwater photographs, pictures from the air and photos of people who reflect the culture and tradition of the country. The historian, Fernanda Basto, in 5 chapters writes a very personal impression of her native country. Quadrilingual (Portuguese, English, German, Spanish)
