El Castillo (Spanish Edition)

Franz Kafka

El Castillo (Spanish Edition) Franz Kafka

El protagonista, conocido solamente como K., lucha para poder acceder a las misteriosas autoridades de un castillo que gobierna el pueblo al cual K. ha llegado a trabajar como agrimensor. Oscura y a ratos surrealista, El castillo trata sobre la alienación, la burocracia, y la frustración, aparentemente interminable, de los intentos de un hombre de oponerse al sistema.

Narra la historia del agrimensor K. en su intento imposible de acceder a un castillo cuyos propietarios le han contratado para realizar un trabajo del que ni siquiera sabe su naturaleza. K. se aloja en el pueblo vecino, a la espera de poder contactar con sus patrones, encontrándose en un microcosmos del que no entiende las normas legales ni de comportamiento. A lo largo de la obra uno puede percibir la irracionalidad que reina dentro de este microcosmos, una psicología desesperante, que trata de acercarnos a la realidad de la época en que fue escrita; donde un individuo, menos aún uno desconocido y odiado, nada puede hacer frente a un sistema que, habiendo sido creado por hombres, no tiene nada de humano.

About the Author

Franz Kafka was born to Jewish parents in Bohemia in 1883. Kafka's father was a luxury goods retailer who worked long hours and as a result never became close with his son. Kafka's relationship with his father greatly influenced his later writing and directly informed his *Brief an den Vater* (Letter to His Father). Kafka had a thorough education and was fluent in both German and Czech. As a young man, he was hired to work at an insurance company where he was quickly promoted despite his desire to devote his time to writing rather than insurance. Over the course of his life, Kafka wrote a great number of stories, letters, and essays, but burned the majority of his work before his death and requested that his friend Max Brod burn the rest. Brod, however, did not fulfill this request and published many of the works in the years following Kafka's death of tuberculosis in 1924. Thus, most of Kafka's works were published posthumously, and he did not live to see them recognized as some of the most important examples of literature of the twentieth century. Kafka's works are considered among the most significant pieces of existentialist writing, and he is remembered for his poignant depictions of internal conflicts with alienation and oppression. Some of Kafka's most famous works include *The Metamorphosis*, *The Trial* and *The Castle*.
